Hate to post an unpopular opinion, but I agree completely. I love siege games, and DOTA, but after this patch, it's really horrible to play. I just went to a siege and cant beat it and now I have no way to leave. Which might not even fix it, so this makes the game unplayable. Why is this happening? Edit: oh shit, nevermind, I read in OP that this was intended. Edit2: Ah, so this will fix the problem? I'm assuming not, unless they've added in a new type of wall? Yep. You need to destroy the middle (lock) of each of the four walls. T/N: I know what "lock" is, I just don't know what he means by the middle. But yeah, what I'm
